

Bachelor Thesis & Seminar (IBE, 29993)

Winter Semester 2026/27

Content: Within the framework of a bachelor's thesis, you work independently on a problem from the field of Production, Logistics, or Business Decision Analysis. An essential part of the work involves conducting a literature search and applying solution procedures known from the scientific literature. Topics typically require skills in Spreadsheet Modeling or basic programming skills.

Applies to: Bachelor (B.Sc.) International Business and Economics

Expected prior knowledge: Interest in the management areas of Production Management, Management Science, or Decision Analysis. Preferably, this interest has been demonstrated through successful participation in related classes, such as *Introduction to Production Management* or *Project Seminar: Quantitative Methods for Business*.

Procedures: The seminar comprises an in-person academic skills tutorial, online weekly office hours, ungraded in-person mid-term presentations, and graded in-person final presentations. Guidance for Academic Writing and a template file are available on the supervisor's homepage and the eLearning page.

Registration:

See the Bachelor Thesis & Seminar information on the Dean's Office of Study Affairs' homepage.

Topics come from the fields of Production, Logistics, and Management Science.

If you have any questions, please contact the supervisor: rainer.kleber@ovgu.de.
